# Message from President:

Photographic Association of Belghoria (PABEL) organised 4th small print & digital salon in the critical pandemic year. The salon will help the Photo

Lovers to fulfil their criteria of FIAP distinctions.

PABEL formed in the year 1979 under the leadership of Shri Benoy Bhushan Chakraborty. Since then, PABEL organises regular classes to

enrich the knowledges of Photographers. Previously both Certificate and Diploma classes were held with the approval of Federation of Indian Photography. After 2000,

due to some unavoidable reasons, the activity of PABEL had been slowed down.

Since, 2017, PABEL has restarted his journey. In 2018 we organised our 5th National Digital salon, the only digital salon organised by PABEL. We arranged print exhibition at Nandan-IV Hall. In 2019 PABEL organised 3rd International small print and digital salon followed by print exhibition at Nati Binodini Memorial Hall. This year due to pandemic situation, we are still now able to decide regarding our print exhibition of 4th PABEL International small print & digital salon.

Holding a print salon in this pandemic situation was a tough job. Most of our members are residing at various parts of mainly North 24 Parganas, even some members are residing outside West Bengal. Though all the members are mentally supported the club, but most of them could not be able to take active participation this year. Only a very few contributed their physical labour this year, whereas, last year our members even from Sambalpur, Jamshedpur were present to make the salon successful.

PABEL arranges regular classes for the members free of cost. Though due to pandemic situation we are not able to hold the classes since last March, we are regularly enriching our members for the shake of promoting Art and Photography.

In 2019, six members were conferred with AFIP distinction, 01 member, Sri Karunakar Satapathy was conferred with EFIP distinction and myself achieved EFIP (Gold) distinction from our parent body Federation of Indian Photography (FIP). Sri Dipankar Dasgupta was conferred with EFIP (Platinum) distinction, the first in India and the only EFIP (Platinum) distinction holder till date.

Sri Rana Mukherjee & Sri Rajat Ghosh had achieved AFIAP, myself achieved EFIAP and Sri Dipankar Dasgupta had achieved EFIAP/b distinction from Fédération Internationale de l'Art Photographique (FIAP).

In 2020, three members were conferred with AFIP distinction, four members were conferred with EFIP distinction from our parent body Federation of Indian Photography (FIP).

Our member Sri Bswanath Sinha has achieved GPU (Crown-2); GPU (VIP-1); AICS, C.MOL and Eh. ISF this year.

I, personally, am thankful to our honourable Jury Members, Sri Subrata Bysack, Sri Rajdeep Biswas, Smt. Mukta Biswas (Print sections), Dr. Debdas Bhunia, Sri Koshal Basu and Sri Subhojit Biswas (Digital sections) for their active support to our salon. I am very much thankful to our beloved Secretary General, Dr. Barun Kumar Sinha, and entire team of Federation of Indian Photography for their support and guidance to make our salon successful. I am thankful to Fédération Internationale de l'Art Photographique (FIAP), Photographic Society of America (PSA) and Global Photographic Union (GPU).

I am very much thankful to Sri Arnab Chakraborty, our Web Master, who did a remarkable effort to conduct the print salon judging as well as Digital salon judging. I am really proud for our members Sri Dipankar Dasgupta, Km. Poulami Bhattacharjee (Alo), Sri Kamalendu Roy Chowdhury and Sri Subratish Maitra, who gave a very hard labour to make the event successful. I am also thankful to all the members of PABEL, for their mental support to the salon. I am very much thankful to all the participants. The salon is only successful for your active participation.

I pray to God for a very healthy life to all of you and your family members. Join Federation of Indian Photography (FIP) to grow more.

Great photography is about depth of feeling not depth of field. — Peter Adams

# Message from Secretary:

Photographic Association of Belghoria (PABEL) organised print salon again this year. Through this salon we have tried to encourage participants to involve in printing their photos. Now a days in digital era people are not familiar to making prints. Printing of photographs only survived in salon photography and only for FIAP distinctions. We are not so enthusiastic about printing because we know it is difficult to ensure the quality of printed outcome from the Printing Houses. It needs a great effort.

The basic difference between a printed image and a digital image is difference in lighting system. When we saw a photo in our desktop or laptop it's a backlit device. But while we get a printed outcome of the same photo, these two may not be the same. It is very much required to calibrate the desktop/laptop, also we need to synchronise our digital device with the printing house. For all these hassles participants of salon photography also avoid print salons.

But for understanding of the outcome of digital photos and knowing the broader spectrum of photography we need to focus on prints. Prints give us the better understanding of tones, colour saturation, colour cast etc. Prints show you things that you might have missed on your screen, especially small ones. The larger you print, the more you will be able to magnify technical issues and details. The feedback is much more accurate and useful than viewing it on Instagram. Getting proof prints are a great economical way to review your shoot. Each time you print a large sized photograph, every detail gets amplified. You can see whether there was good contrast, nice lighting and any defects become very easy to see. Printing your photographs makes you focus on taking better images with your camera. The fact that you will be able to see all the flaws clearly can motivate you to get it right from the start. Your photography will put on a completely new character when you see it on a printed page. Printed pictures have a different effect on the mind than when you see a photo on a laptop, smartphone or even on a high resolution 4K monitor. If you truly desire to study your photography technique and learn more about your style in order to improve, you should print your photos regularly.

In this odd year of CORONA we have faced a severe problem like transportation, man power etc to conduct this print salon. In spite of all that problems we have completed the job happily and successfully which is a great satisfaction for PABEL. PABEL will always take initiative to organise print salon to encourage the participants for the print salon and betterment of the photography.
